Dr. Robert O. Johnson

Dante said this: "There is no greater sorrow than to recall, in misery, the time when we were happy."

I am a very fortunate person, and, happily, I know now just how fortunate I am. I have had nine of the happiest and most enjoyable years of my life in serving as Superintendent of Harborfields.

And I am also grateful. It has been my privilege to be associated with an outstanding group of staff members who have given freely of their time, talents, cooperation, and consideration as we have worked together to provide the best possible education for the students of Harborfields.

It has been a pleasant experience, also, to have had contact with so many fine young people. The seniors were in fourth grade when I came to Harborfields, and I have shared many memorable experiences with you. My fervent hope is that your years in Harborfields, have been rewarding and enjoyable, but particularly, that they have provided you with the skills and attitudes that enable you to go further more easily. I also hope that we have helped you realize your own potentialities and that you will use your talents and abilities to make life for others, as well as for yourself, more enjoyable, successful, and rewarding.

My best wishes to all of you.

RAINBOWS

Rainbows are red, violet and blue
Orange and yellow — a beautiful hue.
Songs are sung and wishes are made
All because of a rainbow's shade
Are they still way up high;
Has the magic gone with a sigh?
Is there really a pot of gold at the end?
Wait! — I see a bright light near the bend.

Perhaps no display of nature has fired the imagination of mankind than that of a rainbow. The graded display of colors often leave us awestruck for various reasons. So it is with history, for history is a rich display of the experiences of mankind. We are impressed with the great achievements of mankind. We are appalled by the tragedies of war and natural disasters. Yet we know that man's destiny is linked to a kind of rainbow. Hence, the rainbow does indeed become a rich symbol of the human experience.

THE SPECTRUM

White light is composed of seven basic colors — each with its own particular wave frequency and length. When light passes through media of different density, such as from the air, through a glass lens or window, or through a drop of water, the variance in frequencies cause the white to separate into the seven parts: Red (low frequency), orange, yellow, green, blue, indigo, violet (high frequency). This pattern of color is called the Spectrum. White light, therefore, is a composite of all colors. The opposite of which is black — The absence of any color; indeed, the absence of light itself.

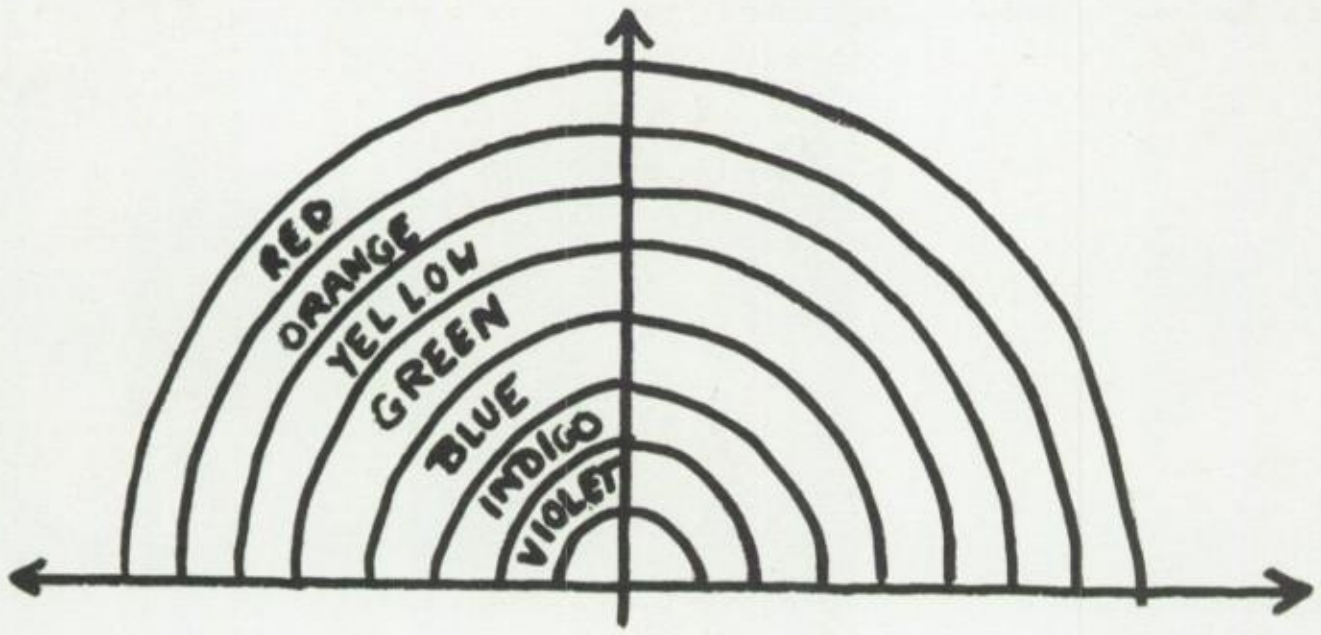
SOMEWHERE OVER THE UNION OF SEMICIRCULAR RINGS



MATH

Fact: "The bow is always observed in that portion of the sky opposite to the sun. The sun, the observer's eye, and the center of the rainbow arc are always on a straight line, thus a rainbow formed at sunrise or sunset can appear as a complete semicircle on the horizon opposite to the sun.

Meteorology, W. Dunn McGraw Hill

Definition: The region bounded between two concentric circles is an annulus, or ring.

Theorem: The area of a circle equals r^2.

Violet — $\frac{1}{2}\{(2)^2 - (1)^2 = 3\}$ /2 square units
Indigo — $\frac{1}{2}\{(3)^2 - (2)^2 = 5\}$ /2 square units
Blue — $\frac{1}{2}\{(4)^2 - (3)^2 = 7\}$ /2 square units
Green — $\frac{1}{2}\{(5)^2 - (4)^2 = 9\}$ /2 square units
Yellow — $\frac{1}{2}\{(6)^2 - (5) = 11\}$ /2 square units
Orange — $\frac{1}{2}\{(7)^2 - (6)^2 = 13\}$ /2 square units
Red — $\frac{1}{2}\{(8) - (7) = 15^2\}$ /2 square units

YOU'VE GOT A FRIEND

When you're down and troubled
And you need a helping hand
And nothing, oh nothing is going right.
Just close your eyes and think of me,
And soon I will be there,
To brighten up even your darkest night.

You just call out my name
And you know wherever I am
I'll come running, to see you again
Winter, Spring, Summer, and Fall
All you have to do is call
And I'll be there, yes I will
You've got a friend.

If the sky above you
Turns dark and full of clouds
And that old, north wind begins to blow
Get your head together
And call my name out loud
And soon, I'll be knocking upon your door.

You just call out my name
And you know wherever I am
I'll come running, to see you again
Winter, Spring, Summer, and Fall
All you have to do is call
And I'll be there, yes I will
You've got a friend.

Ain't it good to know
That you've got a friend
When people can be so cruel
They'll hurt you and desert you
They'll take your soul if you let them
Oh, but don't you let them

You just call out my name
And you know wherever I am
I'll come running, to see you again
Winter, Spring, Summer, and Fall
All you have to do is call
And I'll be there
Yes I will
You've got a friend
You've got a friend

Dear Chris,

It was great being in your chemistry class this year. I really loved all your nice remarks. It was alot of fun stealing your books and working with you in lab. You really know your chemistry don't you. Maybe Jeff Jr is unlucky I'll see you during the summer, just kidding. Bye

VENEZUELAN EXCHANGE

On October 16, 1980 six students from San Cristobol, Venezuela, Diego, Wilson, Elizabeth, Monsita, Lucriacia, Anna, and their advisor, arrived in the United States for a three week stay.

While the Venezuelans were here, they enjoyed many aspects of American life. One day the students and their hosts traveled to New York City where they took in many sights including the Statue of Liberty and the Empire State Building. They saw the show Dancin' on Broadway.

Closer to home, the Venezuelans were frequently seen at the neighborhood shops, especially the Walt Whitman Mall and Huntington Village, where they spent a great deal of money on records, clothes, gifts, and even an Atari game. It was noted that prices were cheaper in the United States than in Venezuela. The students also visited the Vanderbuilt Planetarium and Museum in Centerport where they saw "The Eye See the Light Show."

The departure day was a sad one for Venezuelans and Americans alike. Many last minute pictures were taken, while addresses were being exchanged. Many new friendships and experiences had been shared — it seemed as if it had been only three days instead of three weeks..

AN AMERICAN IN ENGLAND

Loughton, Essex England

5 November, 1980

Dear Classmates;

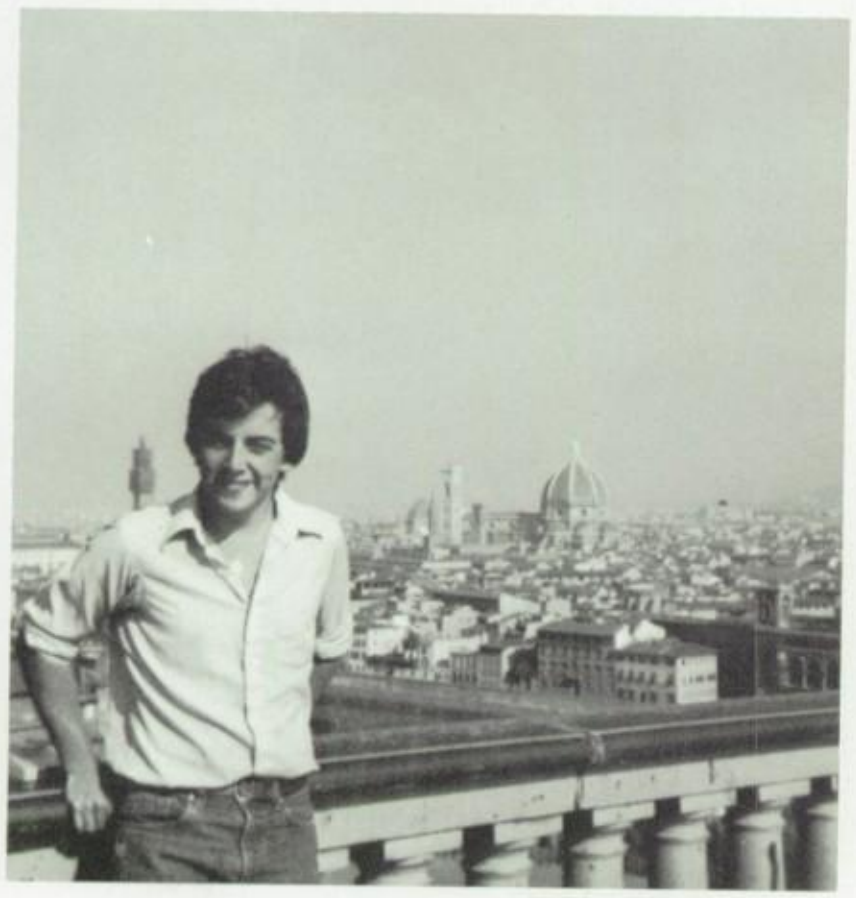
I'm over here in England this year on a student program called AFS. Over the years, Harborfields families have hosted students from various countries of the world on this program and for a long time it was really something I want to do . . . so I tried. The aim of AFS is to let students from over sixty countries in the world live in another country for a time (in my case a year) and get to know its people and culture well, and by the same token, the hosts learn about the student and his country in greater depth, too.

When I first arrived here, I was frightened . . . everything was so different. I had left everything I had known for seventeen years and I had to face a new school, new family, new culture, everything! Sometimes I really had to stop and ask myself "What the heck am I doing here?" It wasn't like I was a tourist and I'd be home in a week or two, I was here to stay! (for a year anyway) It's November when I am writing this, and I'm at the point where I've overcome most of my fears and have become adjusted enough to get down to the nitty-gritty of knowing what England is all about.

I guess I could go on telling you about all the new people and places I've experienced, but I think that this would be pointless. The most important thing I can say is "Peace on Earth" . . . you learn, more than anything else while away, that despite boundaries and cultural barriers, everyone is human and by interchanging cultures, you can see how important peace is to everyone. As people, we have a choice of living in a world where we open ourselves and try to promote peace to other people, or where we shut ourselves away and form the dangerous stereotypes of different people that are the cause of so much hate.

I wish you all the best of luck in your futures.

Cheers!
Brian



AMERICAN-SCANDINAVIAN STUDENT EXCHANGE

FROM DALBY, SWEDEN

BO NILSON

Hi!

This year has been a very special year for me and it is going to be a special memory in my life. I have stayed with the O'Sheas' during the year. I was lucky to come to such a nice family and I have to thank you Mr. and Mrs. O'Shea, Donna, Bonnie, and David for making my stay so great. During my stay here, I have gotten to know many new friends and I have experienced this great American openness and friendliness. When I joined the winter and spring track teams, I got to know a great gang which made track so enjoyable. After this year I am going back to Sweden, but I hope I can come back and visit my friends again after I am finished with my studies in Sweden.

Bo

FROM LOMMA, SWEDEN

ULRIKA GYNNERSTEDT

Hi!

My name is Ulrika Gynnerstedt, I'm from Sweden and was an exchange student here this year.

I always liked to travel, try new things, and meet new people, so I tried out as an exchange student with ASSE, and ended up here. I'm so glad I did, this year has been filled with wonderful times and great experiences. It will always stay as a happy, exciting year in my memory.

I want to thank everyone, especailly my wonderful host family, The Conahan's, and all of you, students, teachers, and staff at Harborfields.

After this year, I'm going back to Sweden to finish my schooling there, but I have already decided to come back next summer for my host sisters wedding and to visit you all . . .

Thank you, and my best to everyone.

Love, Ricky

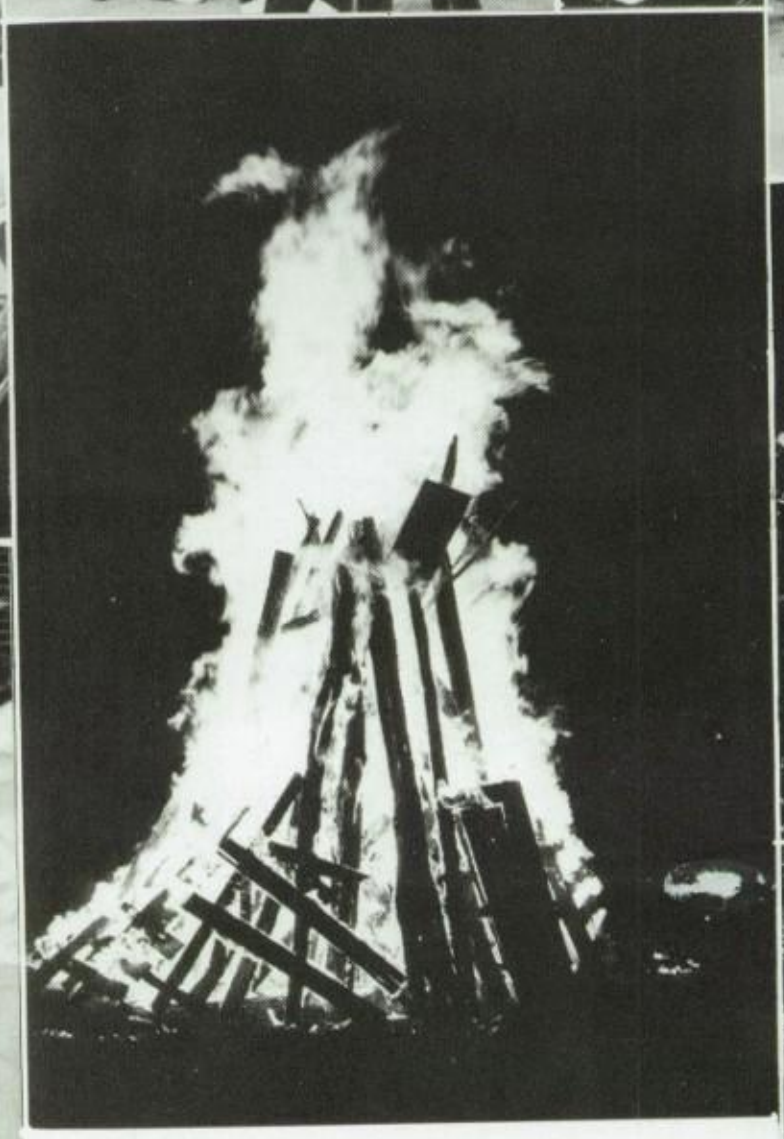
The Class of 1981 extended their float competition victories to four straight with this year's win! The slogan of the winning float was "The Buc Stops Here" refering to the Islip Buccaneers who our football team beat 14-6 for the second consecutive homecoming win!

The seniors had some stiff competition this year from the class of 1982 whose theme was "The Buccaneers Walk the Plank." The classes of 1983 and 1984 also added to the competitiveness with "Another One Bites the Dust" and "Sink Islip," respectively.

CUTEST BABY

Martin Perkowski



After several years of black Friday nights before homecomings, November 14, 1980 became history. The Student Council received permission to cut through the red tape required in order to have the bonfire in late September. At a Student Council meeting in late October it was announced that all of the tape had been cut; the traditional bonfire had returned to Harborfields. Needless to say, it was a huge success.

The girls 1980-81 Varsity Field Hockey Team went into this season with high hopes for a great season. With hard work and dedication we came out with a shot at the playoffs. Although we were eliminated in the first round we still ended fantastically with a 14-2-2 record. I'd like to thank Mrs. Meade f or the tremendous support and confidence that she gave us, but most of all I'd like to thank our #1 fan who supported us through thick and thin. Thanks Rog!

The J.V. Field Hockey Team proved that the right combination of skill, determination, and drive, creates not only a winning team but a team any school and any coach can be proud of.

Our J.V. team had all these characteristics and earned the respect of all.

The Harborfields Varsity Football Team had its ups and downs during this past 1980 season. We won our first two games and seemed to be on our way, however, a couple of bad breaks, including the neck injury to Peter Coyle, halted our drive a bit, as we came out with a record of 4-4. We'd like to congratulate Bill Nuti, Martin Perkowski, and Chris Gates for being selected to the All-League Football Team and to Jon Griesing for making All-League, Honorable Mention. The 1980-81 seniors wish the players of next year the best of luck.

Despite our losing season, I would like to congratulate everyone for sticking in there! We had some problems this year, but we did have fun. When we were losing by many points we never gave up. Every successful win was due to total team effort, although there was something lacking!

Good luck to next years team and we hope you have a more profitable season than we did.

The 1980-81 Basketball season was a success for all involved. Although our record was not great (9-9) we all had a good time anyway.

Congratulations to Robert Baldwin, Chris Gates, and Lou Robinson for making the All-League Team.

I'd like to thank the coaches: Rich Hauffman, Kevin Olds, and especially coach Mayer for guiding us this season.

DRILL TEAM

Cross Country is a very demanding sport. Racing over hilly wooded courses ranging in length for 2.5 to 3.1 miles, is a challenge to any group of runners.

This year's Varsity team made up of seniors Shari Belanoff, Sue Blackman, Gary Colen, David Todd, Dan Riconda, Regina Morrone completed a very fine season. The Boy's finishes second overall in League 5 standings and the Girls finished undefeated for the third consecutive year. For the first time the girls had an individual county winner, Chris Skinner.

Hey Bro!
You are a terrific girl and I'm glad we are related. I bet you'll never forget your sick friend, that's me! I am the delinquent, right? Don't forget the nights we went out with Jenny, Sue and Alan. Remember when we went to crab meadow and we kept falling in the snow. (you forgot everything) Remember your mad crush on G.O. That's over, right?! (Good) Remember my crush, it's not over yet!! Don't forget my great chorus class- thank God I got out of that! Oh, Don't forget our math class - we were Varasseur's favorites (yeah, right!) I'll definitely see you over the summer! I love ya!

Chris,

I really enjoyed being in chemistry with you this year. You really lit up our lives with your bright, cheery smile. You gave everyone a chuckle with your great sense of humor. You were a real joy to work with, and you were so cooperative. I hope I'm in some of your classes next year so we can enjoy the same "good times" that we enjoyed this year. Have a great summer. Don't take too much candy from babies ● and good luck on the regents.

Love

Brian

Dear Christine,

Its been a long year and we really have gone through alot together. Remember the time Kevin came over! What about when Robert, Mike, Robert, Me, Stan, Lisa & you hung out at your house. Remember all the times we went skating, remember Stan?! I cant believe that! Well, we have had alot of weird times too. Remember when I walked to your house & I missed you & you walked all the way to my house?! That was hysterical. Christine, we have such a pissa togethes & I hope we go to college togethes. (If we can stand each other for that long.) Youre a really sweet person & I'm glad you moved here! I hope we can be friends forever and you know that if you ever need a friend, I'm always here! I hope we get to go to Conn. togethes this summer & Calif. in the winter. I cant believe I finally got around to signing your yearbook.

Love ya

Sue

IT'S BEEN A HARD DAYS NIGHT

Christine Yarosh

Charles Olburn

The sun is spinning
and i see its reflections
on broken bottles
and i continue walking through fields
of detested weeds
and the heat creates little balls of
sweat which trickle down my forehead and
collect on my eyebrows
and
my feet avoid rocks
which lay on the hard packed path
anxious to induce pain

and as time moves on
and the present reaches towards the past
i become closer to my inevitable destination
closer to my mysterious fate
and yet i always keep travelling
travelling into the future
and the end of night always greets me with day
and i move from fields of weeds
to forests
to gardens of sweet scented flowers
and the scenery of my route is ever changing

and the sun and the moon are my constant companions
always ready to remind me of who i am
where i am
and to tell that someday i will reach
my unknown destination

SHALOM . . .

I'm having an interesting and exciting year in Israel. I live on a "moshav" or semi-collective with Mr. and Mrs. Yechiel Lachiani and their rather large family. This moshav is one of many small villages in the Mat'eh Yehuda region just west of Jerusalem. The whole village cooperates in raising chickens, but many people also work at other jobs because it is so expensive to live here. I take the bus into Jerusalem several times a week to attend classes and the rest of the time I work on the moshav and tutor English. The villages of Mat'eh Yehuda are populated by Sephardic Jews from the Middle East and Africa who are versed in Hebrew but had no formal education otherwise before they came to Israel, a situation comparable to the one our grandparents faced when they first emigrated to the United States, but one which the Israeli government is trying very hard to improve. The Lachiani family, for example, came originally from Algeria and Morocco and speak only French and Hebrew. At least it's given me an opportunity to practice my French. (Mrs. Kramer, please take note!) They have a washing machine, which is a rarity, but no dryer and we have hot water twice a week (which can be good or bad, depending on how often you like to shower). We eat lots of fruit and vegetables and needless to say there's plenty of chicken, but I must confess to a craving for a good steak now and then!

Jerusalem is just beautiful . . . all hills and literally golden in appearance because of the color of the stone used in building. Some of the systems like the telephone and the mail don't seem to work very well, but the public transportation is good and very cheap. It costs $4 round trip to Tel Aviv, about 40 miles from Jerusalem. (LIRR take note!) Tel Aviv is noisy, dirty and ugly . . . and I love it! It reminds me of New York. It's fun to stroll on Dizingoff Street which is the main drag or sit outside in a cafe and watch everybody else stroll as Dizingoff is jumping and lively til all hours of the night.

I've been on many "tiyuls" or trips with the group or on my own, as far north as the Golan Heights and as far south as the Negev and Sinai. I heard the presidential election returns at the Tel Aviv Hilton at a party sponsored by the U.S. Embassy. I've been swimming in the Mediterranean and snorkeling in the Red Sea! This semester I'll be working 16 hours a week for the Government Tourist Bureau which should be very exciting and challenging. I expect to be home the end of May and, although I will be leaving Israel with mixed emotions, I look forward to getting back to Harborfields, to say nothing of my dog, my cat, and my family.

Regards,

Lloyd Spirak

A.S.P.

A.S.P. is definitely a wonderful growing experience. It is filled with ups and downs, and all around good times. Georgi and Mike have changed my whole outlook on life. They are beautiful people. The friendship that grows in A.S.P. is outstanding and never ever forgotten . . .

7:45 seems earlier and earlier each morning as we grope our way to school. Days seem like years until graduation is here, until there are no more rumors of the impossible math test, no more lines of scientific terms that need to be memorized for A.P. Bio., no more lines for hot lunch, no more little green regents review books, no more computerized admissions tickets for the S.A.T.'s, A.C.T.'s, or A.C.H.'s, no more . . . no more.

There will not be any more ninth grade cookie eating contests either. Our brilliant know-how on the construction of Homecoming floats will be no longer needed. Our not quite victorious but ever united battle against those seniors as they closed the 70's will be only a memory, and our Alma Mater will only be remembered in the way Mr. Shuttleworth sang it.

Are we moving from childhood, where the wait was endless, to maturity where we savor each moment and dread its ending?

Is it possible to hold on to the humorous, the joyful, the trivial, and the slightly ridiculous moments so that we can take pleasure in remembering them in Junes to come? I hope so.

Merry Christmas

I cant believe you wanted me to sign your yearbook. You took a big chance. I could write some mean nasty things, but I'll be nice. And If I cant think of of anything nice to say I wont say anything at all.

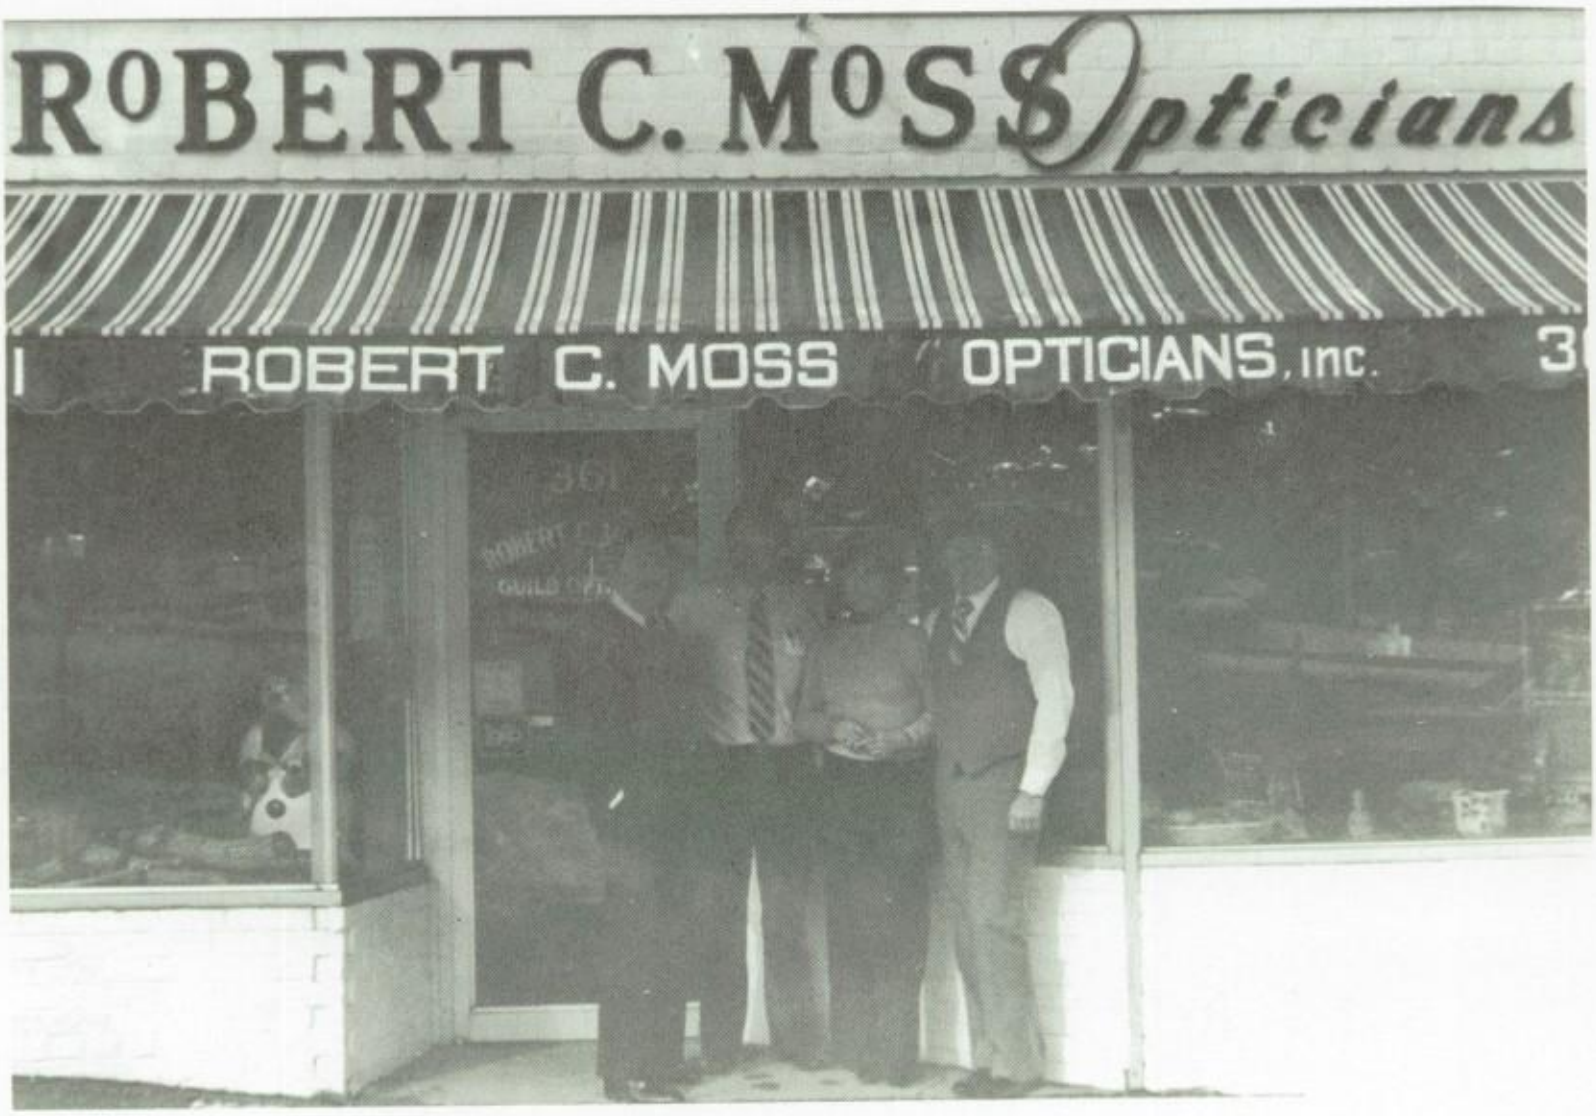
. . . it's been real!



Christine,

We had some good times & I'm glad I got to know you, you're really sweet. Remeber all that trouble with Robert Amabile that was sick. but anyway We should hang out more after we would have a pizza. Call me ove the Summer. 423-4945

Love,

Ann Marie

To the class of 1981

The days of graduation, which you have long awaited with breathless anticipation have finally arrived. You are now entering a new life. It is my hope and prayer that this new life bring you all the happiness and success, and surround you always with love.

The mark you have left on Harborfields is a strong and positive one which will long be remembered. While we will miss you, you must fasten your eyes and your hearts upon a star and look back only upon the fondest memories. Keep your chin high, light up your face with a smile, and point your toes always in the right direction.

Thank you for being the kind of people who have made my job and life as a teacher one of great joy.

With much love to you all
Mr. and Mrs. John Shuttleworth
